EXCELLENCY
IS WHO WE ARE

Folgory is a company specialised in crypto-currency exchange.

Our main focus has been developing the most advanced and turn-key trading platform and software available in the market and to provide our clients with the maximum usability freedom to make their business goals possible.

We have more than 8 years of experience in crypto-coins and trading. Over our years of experience in the market we've developed a keen awareness of our clients' needs and a consistent proficiency in delivering solutions in fast and innovative ways.

We also provide a boutique development service to make your business a truly bespoke experience.

FOLGORY WALLET MOBILE APP

FOLGORY

AT THE LENGTH OF YOUR FINGERTIPS

Make it your own!
Just as you never thought of leaving your house without your physical wallet, this app will become the most indispensable accessory of you daily life. Our fully customizable dashboard makes the usability experience an intuitive delight.

Your focus where you want it and without distractions
Being overloaded with information can be overwhelming, specially if you don't need it. Our app allows you to activate and deactivate wallets so you only spend your attention on the coins that you have a utility for or you are interested in.

What matter to you, matter to us
Because each person prioritizes different currencies according to the uses they have for them, our wallet app gives the possibility to change the order of the coins displayed so your favorite coins can always be on the top of your list for easy access.

The most important coins ready to use
We know how important is to have your currencies available when you want to buy something in a specific coin, that's why our wallet app comes with the main coins included, so you never miss the opportunity to make the purchase you want.

Verification never has been so easy
Forget the long steps required to upload your KYC documentations and pictures to the computer and then to the system. Our KYC camera upload system will make you feel you already finish the process before you started.

Push notifications to never miss anything
Our app comes with an integrated notification system so you can always be aware of all the payments sent to your wallet. Our push notification will make sure you never miss a transaction, so activate the bell and relax!

Receive and send all the payments you want
With Folgory Wallet Mobile App you can send payments to any other wallet owner with the a simple tap on the screen and the QR Code payment generator make the transactions even more friendly to use and enjoy.

MERCHANT GATEWAY

UNLEASH YOUR COIN'S POTENTIAL

With our merchant gateway your coin will expand its usage by letting your users buy and sell products and services in the physical world.

Make great deals with the best shops and become famous in new markets.

The possibilities are unlimited!

Features

Payment request via email
Easy to send, easy to pay. You can send an invoice at any time for the price of the product or service that your customer wants to buy. The customer will receive the email, and will pay directly.

A QR code away
In your hotel, restaurant, shop, website, show the QR code of the payment to your customer, via screen or pos terminal device or iOS / Android app and he will pay securely.

Wallet euro convert
Once verified, you can choose to automatically convert the funds you receive from cryptocurrency BTC/ETH/LTC/BCH in euro. You can also request a transfer to your account or you can top up your prepaid Folgory card.

Sell your products with 0% fees
Opening a merchant account with us is free and all crypto transactions you make have 0% fee. Collect the amount you sell in full. We are the only one in the world who offer this service for free.

POS terminal
The first POS terminal that accepts payments with VISA / MASTERCARD / AMEX and Cryptocurrency.

Mobile App iOS and Android
Sell your products and services via the merchant Folgory app on Android or iOS.

Woo commerce plugin for e-commerce
Receive payments from a website with the plugin for woo-commerce.
